Lacado
Lacquered
Laque

Lacado: Normalmente sobre DM. El proceso de lacado, consiste en aplicar una imprimación sobre la puerta, proceder al lijado y terminar con la aplicación de la laca. La belleza de la laca es la calidad que ofrece su acabado, el tacto de una cocina de mueble lacado es inigualable. Puede elegir entre numerosos colores, acabados y tipos de puertas lacadas, desde brillos, mates, texturados o envejecidos con gamas de diseños de puertas modernas o clásicas.

Lacquered: Usually on DM. The painting process is to apply a primer on the door, proceed to sanding and finish with the application of lacquer.

The beauty on lacquer allows o obtain a smooth surface.

The feel of a kitchen with lacquered doors is unique, with possibility of choice between many colours, finishes (glass, matte, textured, picking, aging,...) and different types of doors (modern, classical,...)

Laque: Nos laques sont appliquées sur des panneaux MDF (Panneaux de fibres de moyenne densité). Plusieurs couches sont nécessaires pour obtenir un rendu parfait. Nous réalisons des laques mates, satinées et brillantes au prix de base, sur nos 70 coloris standards.

Nous pouvons également réaliser des coloris du RAL avec supplément.
